Marshfield DoorSystems® Introduces Carte Blanche™ Product Line

Marshfield, WI Nov 29, 2007 - The architectural door industry leader, Marshfield DoorSystems®, is pleased to introduce Carte Blanche™. Carte Blanche™ is a new product line made of one-piece, composite wood then routed based on the specified design for commercial applications. This new product line will give customers the ability to have superior quality with a uniquely crafted custom door.

Carte Blanche™ doors are a blank canvas, ready to be manufactured to the design ideas and project requirements of creative and demanding architects and builders. Boasting more than 180 paint ready styles to choose from, fire ratings of 20 through 90 minutes, and neutral or positive pressure construction options, Carte Blanche™ offers the customer broad design options and opportunities. Custom elevations and curves are also available at no extra cost. Additionally, because there are no joints in Carte Blanche™ doors, you can rest assured Carte Blanche™ doors will not crack, warp or show separation.

The Carte Blanche™ line is the third major product introduction made by Marshfield DoorSystems® in 2007. With the introduction of PerfectMatch™ Doors, Harmony Wood Jambs and Casings and now

Carte Blanche™, the company has demonstrated its commitment to providing solutions and innovation to its customers.

Located in Marshfield, Wis., Marshfield DoorSystems Inc. is owned by Wind Point Partners, a Chicago based private equity firm. Marshfield DoorSystems® has been a leader in the architectural door industry for over 117 years, manufacturing commercial wood doors and door components for architects and builders all over the United States and the world. The company offers customers more than three million possible product combinations of doors on a "make-to-order" basis. For more information, call 715-486-2495 or visit www.marshfielddoors.com.
