## **Marshfield DoorSystems® Introduces Harmony Jambs and Casings**

Marshfield, WI Nov 29, 2007 -- America's leading provider of commercial doors is pleased to announce a new product offering to complement our extensive line of fine commercial doors. Our new Harmony Jambs and Casings are the perfect complement to every Marshfield DoorSystems® door.

Available in non-rated and up to 90-minute rated frames, Harmony Jambs and Casings are machined to your specifications and finished to match the corresponding doors. In addition, both jambs and casings are available in four distinct profiles and shipped "knocked down," marked and bundled by opening.

Additional features and benefits of the fire-rated jambs include adjustable clip anchorage for faster installation with no exposed fasteners on frame pieces, and a wide range of available door sizes and jamb widths. The patented composition is fire rated up to 90 minutes and can be used with positive or neutral tested doors and hardware. Universal profile dimensions reduce job site framing confusion and provide uniform appearance. Furthermore, no special fillers or joint compounds are required to maintain this superior protection.

Located in Marshfield, Wis., Marshfield DoorSystems Inc. is owned by Wind Point Partners, a Chicago based private equity firm. Marshfield DoorSystems® has been a leader in the

architectural door industry for over 110 years, manufacturing  
\*\*\* commercial wood doors and door components for architects and  
builders all over the United States and the world. The company  
offers customers more than three million possible product  
combinations of doors on a "make-to-order" basis. For more  
information, call 715-486-2495 or visit [www.marshfielddoors.com](http://www.marshfielddoors.com).
